- Friendly and Open mind.
- Good personality and willing to learn.
- Determinate and Concentrate to finish my tasks.
- Self-motivated, fast learner and challenger.
- Team player, flexible and proactive.

#### EDUCATION:

- **King Mongkut University of technology Thonburi**  
Control system & Instrumentation Engineering

#### EXPERIENCES / TRAINING:

- **Software Developer, Buchi Co.ltd (July2015 – present)**
  - **Description** : Design and Develop Windows application and Mobile application(iOS) base on .Net framework.
- **Software Architect, 2C2P co. ltd (Jan 2014 –Jun 2015)**
  - **Description**: Design and Develop Web application and Web service base on .Net framework to support banking business.
- **Cobol Programmer, IBM solution delivery (Sep 2012 – Dec 2013)**
  - **Description**: Develop programs/JCL and support customer. A part of Payment team Major task is develop/support on Media Clearing application in KT Wave4 project with Cobol/JCL and C#.
- **Engineer I, Tooling Software Development Department at Western Digital Co.Ltd (May 2010-Aug 2012)**
  - **Description**: Develop software and Module to control the machine or interact with operator.
- 7 habits of highly effective people.
- **IT Project Management : CompTIA Project+™ Certification (Course).**
- **Sensor and Actuator (HTTI).**
- **AI Programmer and Team leader**  
**Revenger , KMUTT**  
**(2006-2008)**
- **Winner in robot challenge**  
**Inex Co., Ltd.**  
**(2006)**

#### SPECIAL SKILLS:

- Strong skills in Automation systems and robotics.
- Strong knowledge in Payment gateway and E-Commerce business.
- Strong in ISO-8583 message.
- Strong in Web application and Web service.
- Strong in Design pattern MVVM, MVVM Cross, MVC and Object oriented programming.
- Strong in Unit test, Integration Test and Build system.

- Strong in UML design, class diagram Test case and Test plan.
- Advance skills in iOS mobile application (Xamarin).
- Basic knowledge in IT Project Management, Risk management and Change Request.
- Basic skills in Javascript and JQuery programming language.
- Basic knowledge in AngularJS and AJAX.
- Basic knowledge in CSS and html programming language.
- Strong skills in Cobol/JCL mainframe programming and business rules on Industrial banking (z/OS).
- Strong skills in C/C++, C# base on Microsoft.NET framework programming with a lot of experience on designing, coding, debugging, testing software and training to customer.
- Strong knowledge of Robotics and Machine Vision with a lot of experience to develop software to detect the interested object by using image processing techniques.
- Strong knowledge of data structure, SQL command/databases and XML technology and Entity Framework.
- Basic knowledge on SDLC.
- Strong skills in GUI development.
- Strong knowledge in sensor and instrument devices.
- Basic knowledge in PID control and PLC programming.
- Basic knowledge in Embedded systems on AVR, dsPIC33 , ARM7 , M68000 , MCS51
- Basic skills in Electronics & Design circuit.
- Proficient in Microsoft Office, Matlab, Solidwork, Autocad, Proteus, Keil, AVRstudio , LabVIEW 8.5 , MPLAB , Protel DXP , Eagle layout editor
- Basic knowledge in Network System on protocol TCP/IP , RS-232
- Basic knowledge in Signal analysis and Process control.

## REFERENCE

- Asst.Prof.Diew Koolpiruck, Head of Department,Control System and Instrumentation Engineering, KMUTT
