  - 20 hours from summer class

### *Interests*

- Interest field: Computer vision, Image processing, Speech processing, Web technology, Embedded system, E-learning, E-commerce platform
- Freelance jobs
- My senior project from Bachelor's degree was Thai music notation reader which related on Image processing and Computer music (MIDI). I applied the knowledge about OCR to read Thai letters and generate the sound by input letters.
- Hobbies: Blogging, Perform music, Learning language, Traveling, sport and game that need a lot of concentrate like Petanque, Sudoku, chess or Crossword

### **PERSONAL STATEMENT**

---

I'm a high-motivate, think optimism, good health and enjoy meeting new people. I often find myself intermediate with work. I'm good at manage and eliminate my bad emotion from work. I am able to work in team and also can work individually. I do not have the specific field of knowledge but I have knowledge in many areas. As I am a fast learner, learning new things is supposed to be my specification.
