March 2014 - Present (2 years 6 months)

Day to Day Job Rundown:

- # Investigate any alarm from prtg from previous day
- # Monitoring server making sure they work correctly
- # Jot down everything network related on my morning meeting
- # Looking at the router's routing table see if everything is in order
- # Open my Company NMS see if there are any anomalies on the traffic
- # If required, Prepare a Network topology for upcoming project
- # Update network documentation
- # By the end of the day i create a note on what needed to be done by tomorrow
- # End of the Month, provide a recap for, trouble ticket, Network Documentation, Etc

I LOVE IT!
