

RIZWANUL ISLAM RUDRA

UX Designer & Web Developer

PROFILE

I am a passionate Web Developer and UX designer based in Bangkok, Thailand. I have been staying in Bangkok for four years and studying Computer Engineering in Assumption University (ABAC), the first international university of Thailand. I love to play with different programming languages and frameworks. Experienced in UI/UX designing and Application Architecture. Besides the software field I am also experienced in IoT & Embedded Systems. Fluent in English and can speak basic Thai.

OBJECTIVE

Seeking full time job in the field of Computer Engineering / IT / Web Development or any interesting work field.
