

RESUME

Personal Data

Name: Suchan Kooprasit
Objective:
Date of birth: 8 Jul, 1982 Religion: Thai
Sex: Male Height/Weight: 66/173
Marital Status: Single Nationality: Thai
Home phone: - Mobile: 099-1517066
Address: RHYTHM Phahon-Ari 1377/12 Floor 7 Phahonyothin Rd, Samsen Nai, Phaya Thai, Bangkok 10400
Email: zeroworld@gmail.com, zeroworld@hotmail.com

Educational Background

2007 - 2010 **Master's Degree** Science and Technology at Thammasat University.

Major : Computer Science. GPA 3.33

2001 - 2005 **Bachelor Degree** Technology Agriculture at Rajabhat Vajiravudh University.

Major : Technology Agriculture. GPA 2.51

Personal Profile

Hi, my nickname Aum. I'm friendly & hard working, able to work under limited time and pressure, able to work well both independently and in team. ☺

And welcome to my website <https://www.zeroxlll.com>

Strong Skilled Software Tools

| | |
|----------------------------------|----------------------------------------------------------------------|
| Programing Languages: | Shell Script, PHP (MVC Laravel, Cake), ASP/NET C#, Java |
| Web Server: | Nginx, Apache, IIS |
| Web Service: | JSON, SOAP, XML |
| Web Program: | HTML5, PHP, ASP.Net C#, CSS |
| RDBMS: | MongoDB, MySQL, MSSQL, MS Access, PL/SQL, Oracle 11gR2 & Client |
| Operating System: | Cloud System, Linux Red hat, CentOS, Windows Server OS, Windows OS |
| Cloud Platforms: | Google Cloud Platform: Google Cloud Computing, goDaddy Cloud, Cloud9 |
| Mobile Programming: | Android OS |
| Security System: | - |
| Object Oriented: | - |
| Report Tools: | Google Chart, Crystal Report, iTextSharp DLL |
| Analysis and Design tool: | MS Visio |
| Document tool: | MS Word, MS Excel, MS PowerPoint |

Experiences

July 2014 – June 2016

Senior Services Delivery Platform, Dtac Corporate SMS, Messaging Gateway SMS

(Services Development Dept., Technology Group)

Senior CRM Admin Application Provision & Operation

(CRM Solution Dept., Technology Group)

at **DTAC (Total Access Communication Public Company Limited)**

Website - <http://www.dtac.co.th/>

Administration Management

- Coordinate with infrastructure team and perform operation readiness test prior to deployment to ensure that application is configured and functioned correctly in production environment before end users start using the application (Create Shell Script to Verify & Check & Configuration & Tuning on production).
- Perform preventive maintenance activities for Services application operation, including service health check to ensure that the programming and equipment are maintained at highest performance and maximum uptime with optimum cost effectiveness and proactively resolve problem and error before they turn into incident. (Create Website Internal to Verify & Health check and SPUNK product Success Rate, Response Time, Availability).
- Conduct report of Services operational performance, in order to efficiently analyze and evaluate performance for further improvement. (Create Automate Script & Website to Mail and SMS Report System & Alert System)
- Ability to achieve an understanding of technical architecture in order to assess changes and requests from internal and external technical customers.

Operation System

- Perform 2nd tier support for incident and problem management for Services to ensure that the incident/ problem is efficiently, effectively, and sustainably resolved with long-term resolution from its root cause within minimal timeframe. (in SLA Time)
- Perform application administration and monitoring of Services applications to ensure that system runs smoothly without failure on SPUNK product Success Rate, Response Time, Availability). (Create Shell Script & to Monitor Alert Mail and SMS)
- Participate in operation support of both batch and on-line systems to ensure that all activities are performed effectively and efficiently
- Operate server support functions such as verification of system configuration settings, review of system logs, obtaining performance statistics and application of Microsoft updates. (Standby 24x7)

Coordinator & Consult

- Coordinate with and facilitate in the escalation of problems to resolve incidents that couldn't be fixed according to the timeframe or sophistication of issues that has been agreed upon
- Assist in product integration, manufacturing support, and verification test plans to meet requirements and specifications
- Be accountable for other certain works as assigned from immediate superior level

Document

- **Direct preparation of appropriate documentation** for assigned projects to ensure that all documents are accurate and follow by technical requirements. (Software Requirement System Document Diagram & Flow System Document & User Guide & Solve Problem Document)

Dtac Training

- SPLUNK Monitor User View.
- MongoDB Administrator.
- IT Trend 2016.

September 2011 – July 2014

Senior Professional System & Networking (Information System/Technology Infrastructure, Re-Organize to MultiPlatform Team from ApplInfra Team)

System Engineer Web Application/Server (Information System/Technology Infrastructure, Application Infrastructure)

Website - <http://www3.truecorp.co.th/home>, <http://www.truevisionstv.com/>

Website - <https://anywhere.truevisions.tv/> ,<http://www.truevisionsgroup.com/> ,<https://store.truevisions.tv/>

Administration Management

- **Develop and manage** the critical path schedule for specified projects, updating project team members of progress against milestones, key issues and developments & Solve Problem.
- **Develop and manage** on Zone Middle Ware for Analyst & Service & Configuration Application with IIS 6.0/7.0 On Windows Servers (2003/2008 32/64BIT), and Apache On Linux Redhat 5.6(64BIT)
- Organize Meetings, Associated agendas as required. Take minutes and actions of key meetings and distribute as directed.
- **Analyst & Deployment & Service & Configuration** Network to Server Concept and Network to Server Architecture, Apache, Oracle Cluster/ Oracle RAC, Active Directory, Basic Network, Linux Redhat, Load Balancing Technique, FTP/SFTP/FTPS Service, SMTP service, DNS Resolve, SSL, Log, IT Security
- Understand Web Application Concept and Software Architecture, Internet/Web Concept and Architecture, Web Service, SSL, Web Security, DNS Resolve, Load Balancing and Multi-Tier Web Application

Special Assignment

- Responsible for **Develop Web Application & Web Service (Back-End Report & Log Analyst & Monitor Streaming)** for Inside Team True Visions be composed of Online using

- Main Responsible Project **HP Business Process Monitor (BPM)** software on True Visions
- **Implement & Configuration** HP Business Process Monitor (BPM) software on True Visions
- **Analyst & Service** Implement HP Business Process Monitor (BPM) to Manager when have Problem
- **Create Analyst Report Weekly & Monthly** from HP Business Process Monitor (BPM) each Project

1. **PHP Language** on Laravel framework, & CakePHP framework (**using Model View Controller MVC Concept**)

2. **ASP.Net C#** Language base on Microsoft Visual Studio 2010 , Microsoft SQL Server 2008, Microsoft .NET Framework 3.5 & Authentication from AD, LADP

- Develop an embedded Document report from database system application convert to PDF, Word, Excel, Crystal Report
- Connection Database Object Linking and Embedding, Database (OLEDB) DataReader, DataTable for C# and the .NET Framework 2.0 & language-integrated query (LINQtoSQL) extensions for C# and the .NET Framework 3.5

- Connection Database

1. **Oracle 11 gR2**, Oracle Client, Oracle Data Provider for .NET (ODP)

2. **MS-SQL** 2005, 2008 for .NET (ODP)

3. **MySQL** for PHP

4. **MongoDB** for PHP

- Understand **HTML5, HTTPS, W3C, Web Standards, CSS and Java script** for website.
- Understand Search Engine Optimization (SEO), URL Rewrite and RSS Feed XML for website.
- Understand & Using Connect **Application programming interface (API)** Facebook, Twitter, Linked, Google Map, Google Chart.
- Create Class Library DLL and OOP Programming
- Understand & Create Class Library DLL and **Model View Controller (MVC) Concept & OOP Programming.**

Document

- Software Requirement System Document each Project
- User Guide & Solve Problem Document each Project
- Service System Document each Project
- Diagram & Flow System each Project

Coordinator & Consult & Contact

- Infrastructure Middle Ware Point for Consult & Analyst & Coordinator & Contact when system & server have Problem from Developer, Network, VM Ware, Database and Base System

True Corporation Training

- Information Security Awareness for IT Professionals.
- Microsoft Windows Communication Foundation.
- Information Security Awareness Training for IT.
- Hacking, Auditing and Hardening Web Application/Web2.0 On Advanced Certified Information Security
- Professional Center (ACIS) (Pass Certificate)

December 2010 – September 2011

System Developer ASP.Net C# for Global It World co.,Ltd

Website - <http://www.gamingitwork.com/>

- Estimate time, Design and Analyst, Develop Coding, Unit test Coding and Manual Tester Project from Project Manager
- Understand N-Tier Architecture, Data Store Layer, Data Access Layer, Business Logic Layer, Presentation Layer, Performance Website, Object-oriented programming (OOP) for Web Application.
- Responsible for develop Web Application (Front-end & Back-End office) for Customer be composed of Planning an Architecture, Membership and User Profiling, News and Article Management, Opinion Polls, Newsletters, Forums, E-Commerce Store, Localizing the Site, Deploying the Site using ASP.Net C# Language base on Microsoft Visual Studio 2010 , Microsoft SQL Server 2008, Microsoft .NET Framework 2.0, 3.5
- Responsible for develop Web Service for iPhone & Android Developer data connection be composed of Planning an Architecture, Membership and User Profiling, News and Article Management, Newsletters,

Localizing the Site, Deploying the Site using ASP.Net C# Language base on Microsoft Visual Studio 2010 , Microsoft SQL Server 2008, Microsoft .NET Framework 3.5

- Develop an embedded Document report from database system application convert to PDF, Word, Excel, Crystal Report
- Using XHTML, W3C, Web Standards, CSS and Java script for website.
- Using Search Engine Optimization (SEO), URL Rewrite and RSS Feed XML for website.
- Using Connect Application programming interface (API) Facebook, Twitter, Linked, Google Map, PayPal
- Using Third Party Payment Gateway (PayPal) for Web Application.
- Create Class Library DLL and OOP Programming
- Connection Database Object Linking and Embedding, Database (OLEDB) DataReader, DataTable for C# and the .NET Framework 2.0 & language-integrated query (LINQ to SQL) extensions for C# and the .NET Framework 3.5
- Tool common Project Visual SVN, TortoiseSVN

2008 – 2009 **Programmer Analyst** for River Park Consultant co.,Ltd

Website - <http://riverpark.co.th/>

SME Banking, Thanachart Banking, General Customers – Project

- Responsible for develop Web Application for Customer be composed of Planning an Architecture, Membership and User Profiling, News and Article Management, Opinion Polls, Newsletters, Deploying the Site using ASP.Net C# Language base on Microsoft Visual Studio 2008 , Microsoft SQL Server 2005
- Develop an embedded Document report from database system application convert to PDF, Word, Excel, Crystal Report. The application is developed by Microsoft Visual Studio 2008 which is connected to Database Microsoft SQL Server 2005
- Connection Database Object Linking and Embedding, Database (OLEDB)) DataReader, DataTable for C# and the .NET Framework 2.0
- Using CSS for template and Java script (jQuery)
- Responsible Contact & Testing to SME Banking for User Acceptance Testing
- Responsible Document using Microsoft Word & Visio for User's Manual
- Responsible for Training using Web Application to officer SME Bank
- Tool common Microsoft SourceSafe

With-in Office – Project

- Responsible for Software & Hardware Asterisk by using connection Telephone with-in office base on UNIX OS

2007 - 2007 **Programmer** Thai-German College of Technology (ASP.NET C#)

- Responsible for develop Web Application for Department be composed of **Planning an Architecture, Membership and User Profiling, News and Article Management, Opinion Polls, Newsletters, Forums , Deploying the Site** using ASP.Net C# Language base on Microsoft Visual Studio 2005 , Microsoft SQL Server 2005
- Using CSS for template
- Develop an embedded report for database system application by using Crystal Report. The application is developed by Microsoft Visual Studio 2005 which is connected to Microsoft SQL Server 2005 as a database.

2006 - 2006 **Web Programmer** Royal Irrigation Department Saraburi (ASP)

- Responsible for develop Web Application for Department using ASP Language base on Dreamweaver8, Microsoft Access 2003

2004 - 2005 **Testing Mobile Application** Orange Co.,Ltd.(Present, True Move)

Website - <http://truemoveh.truecorp.co.th/>

- Responsible for Testing Web Application for Customer
- Responsible Contact & Testing to Programmer for User Acceptance Testing

MultiPlatform management data by True Visions MultiPlatform team.

Welcome to Web Application for Manage Data Store library by True Visions MultiPlatform team. We're a professional, full service web development company that creates elegant website designs and build innovative web applications.

Management Data Function

An effective website requires a clear definition of goals, comprehensive planning, and expert execution. For sites that have not yet been built or are ready to undergo a transformation, we can provide information on architecture planning. Contact us for a free consultation.

Search API Imdb Function

While constantly communicating with the client, we organize all aspects of the project to set paths for further design and development process. We create smart and usable interfaces with a strong accent on accessibility and semantically correct markup.

Report Application Development

Regardless of the project size, we offer robust and sophisticated "out of the box" or custom built solutions. From a typical content management system to specifically targeted web applications, we produce highly usable, modular and search engine optimized solutions.
