Experience

2010–present PT Accenture Jakarta

Lead - Accenture Management Consulting (Supply Chain & Operations) - Products Operating Group

- Responsible for Sales and Delivery of Supply Chain Management and Manufacturing projects in Indonesia.
- Projects in areas such as Manufacturing, Operational Excellence, Fulfillment, Planning, Procurement and Supply Chain Transformation across various industries (e.g. FMCG, Mining, Heavy Equipment, Automotive).

2008–2010 PT Datascrip Jakarta

Head of Logistics Division *reporting to President Director*

- I was responsible Purchasing, Sales Administration / Customer Service, Warehouse and Distribution (3 sites), as well as Import, with total of about 200 Direct & Indirect reports for one Indonesia's prominent trading company.
- Changed the structure in each department to be in more aligns with commercial requirements. Modernize the setup in our warehouses and consolidate import activities by partnering with selected forwarders.

2005–2008 Saint-Gobain Abrasives Indonesia Jakarta

Supply Chain Manager *reporting to Country Manager–Indonesia*

- French-based, Saint-Gobain is the largest abrasives company in the world with two factories in Indonesia with about 400 total employees.
- Filling in for a newly created position, I was responsible for setting up new organization in Supply Chain with tasks ranging from Forecasting, Planning, Customer Service, Warehouse/Transportation, Purchasing, Export/Import while revising the previous processes and procedures.
- In charge of managing changes from mainly a manufacturing focus company to company which place greater emphasis to customer service level, controlling the costs and delivering service to customers.

2003–2005 adidas-Salomon International Sourcing Jakarta

Planning Manager *reporting to Country Manager– Apparel Indonesia*

- Set up the newly relocated office from Singapore to Jakarta with all new staffs. Manage 11 subcontract factories in 3 countries (Indonesia, Malaysia & Singapore), with tasks ranging from PO creation, Customer Service, Capacity Management, Production Planning and Delivery Management. As contact person for most of the third party suppliers.
- In 2004, as part of the world largest apparel sourcing office for adidas, we were able to achieve the **best** delivery performance in the world and the most improved, and to maintain similar performance in 2005.
- Winner of the **best** department award in Apparel Division-Indonesia in

2004 and Appointed *Project Manager* for a major worldwide project initiative using Lean Six Sigma tools.

2002–2003 PT. Essence Indonesia Jakarta

Logistics Manager *reporting to Operations Manager*

- Hired to create Logistics department as embryo of Supply Chain division in Indonesia.

1999–2002 PT. Nestle Indonesia Jakarta

Demand Planning Manager *reporting to EVP Supply Chain*

- Hired to create Demand Planning department under Supply Chain division, the first of its kind for Nestle in Southeast Asia.
- Increase sales forecast performance by 20% in the first year to more than 80% accuracy and were able to maintain such high level performances even with ever increased complexity in subsequent years.
- Member of 1st-prize Winning Team in Nestle Innovation Award, for the most successful launch of new products in 2001.

1997–1999 PT. TNT Logistik Indonesia (now CEVA) Jakarta

Business Development Analyst *reporting to VP Business Development*

- Contact potential and existing large local and multinational clients for new or expansion of third party logistics contracts.
- Member of International projects with other TNT offices worldwide for large multinational clients.
- Collect and analyze clients' warehouse, distribution, transportation and inventory data to create and present alternative solutions.

Education
