Curriculum Vitae

KANYA PANDEY
145/1 Hiranruchi Thonburi
Bangkok, Thailand 10600
Contact No. : 0931569718
kanyapandey2603@gmail.com

OBJECTIVE
To have international cultural exposure and hands-on experience in the field of software engineering. My main intention is how to help people like disabled or poor people by combining software and the latest technologies. I will try my best to perform well in all my tasks passionately.

EDUCATION
King Mongkut's University of Technology Thonburi, Bangkok — Bachelor Degree, 2016
Inter School (Grade 12) Maths, Computer and Science - St. Joseph's School, U.P. , India
High School (Grade 10) Maths, Science - St. Joseph's School, U.P. , India.

EXPERIENCE
Software Infrastructure, Thinknet Company
Bangkok, Thailand — 2015
During my internship period I did a project related to internet.org where me with my team implemented this http://test-io.jobthai.com/ page (for providing employement) so that to bring affordable access to selected internet services to less developed countries. I also did some research about elasticsearch and their products specially logstash and kibana, about machine learning (big data) by using data mining techniques.

EXTRA CURRICULAR ACTIVITIES
English Debate
Participated in CSR activities conducted by Thinknet Company in Bangkok.
Second Runner up in Essay Competition conducted by ICE (International Center of Engineering, KMUTT)
Participant in E-Game (Engineering Game), CPE Game.
Staff ComCamp #26, KMUTT

SKILLS
Programming Languages : Python, little php, intermediate in C, java.
Develop iOS application (swift)
Web designs : Effective HTML + CSS
Database Management System : Microsoft SQL Server, Parse (Cloud Service), NoSQL Databases.
Bootstrap knowledge, Data Mining experience.
Platforms : Linux, MS Windows, Mac OS

HOBBY
I love to share my knowledge and teach Mathematics and Science to my sisters and friends.
