Summary

I am a proficient developer with 3 years. Concentrating on Java and J2EE for the past 4 years, I have extensive of using open source and libraries to implement enterprise class application. I am also a keen proponent of agile methodologies and have successfully introduced agile techniques into project which I have managed. I am seeking a challenging position as a programmer, ideally in a project team developing large scale enterprise system.

Education

- B.Sc. in Information Technology, Maejo University, THA, 2008-2012.
- Studying M.Sc. in Web Engineering, Dhurakij Pundit University, THA, 2014-Present.

Certificates

- Information Technology Passport Examination (IP) *License THIP14A0012*
  Information Technology Professional Examination Council (ITPEC) November 2014 –Present.
- Dhamma Scholar Advanced Level. *License ชม 3350/0047*
  Central Dharma Testing Service Headquarters of Thailand December 2007 – Present.

Skills & Expertise

- Knowledge of Programming in Java, C#, Object – C and C++ language.
- Knowledge of Mobile Development (Android Application).
- Knowledge of creating software test plan.
- Knowledge of System analysis and design with UML.
- Knowledge of Object Oriented Programming.
- Knowledge of PL/SQL.
- Understanding of development on MVC model.
- Open source libraries (Struts1, Struts2, JSF, Seam, Jboss tools, Spring, Prime face and Jakarta POI).
- Web / Application Servers (Apache, Tomcat).
- Database Servers (Oracle, MySQL).
- Spoken, Listening and written English fairly.

Client Experiences

- **Programmer Analyst at Advanced System Consulting Co.,Ltd. (2 Year 6 Months)**
  Duration: November 2015 – Present (3 months) Outsource on PTT ICT Solutions Company Limited.
  Duration: May 2014 – November 2015 (1 year 6 months) Outsource on Advanced Info Service PCL.
  Duration: November 2013 – May 2014 (7 months) Outsource on True Information Technology Co.,Ltd
- **Programmer Analyst at Infinite Computing System (Thailand) Co.,Ltd. (7 Months)**
  Duration: May 2013 – November 2013 (7 months) Outsource on Advanced Info Service PCL.
- **Programmer at Command Control Technology Co.,Ltd. (1 Year)**
  Duration: May 2012 - April 2013 (1 year)

Project Experiences

- **Report BOT (Report for Bank of Thailand)**
  Duration: November 2015 – Present
  Industry: PTT ICT Solutions Company Limited
  Team: ATA (Technology & Analytic Applications)
  Position: Programmer Analyst
  Responsibilities:
  - Responsible for Developing Programs Report BOT (Report for Bank of Thailand) such as: Report Providing electronic money (e-Money), Report Spending on electronic money (e-Money) by the valued, Payment Problem and Back-end balance was calculated by months. Reporting module has been designed and implemented by Jakarta POI. The system has been designed following common MVC pattern: Spring framework is being used as a front-end solution; Server database to Oracle.
- **Report Redesign**
  Duration: August 2015 – November 2015
  Industry: Advanced Info Service Plc.
  Team: SAND (eService)
  Position: Programmer Analyst (Business intelligence)
  Responsibilities:
  - Responsible for Developing Programs Report Redesign (Analysis of data from the marketing team) request by Marketing AIS. Report Develop tools used Tableau; Server database Oracle Server.
- **LOG SSB(Service Sync Batch)**
  Duration: March 2015 - July 2015
  Industry: Advanced Info Service Plc.
  Team: SAND (eService)
  Position: Programmer Analyst (PL/SQL Developer)
  Responsibilities:
  - Responsible for Developing Programs Log SSB (Service Sync Batch file log) request by eService Team. Log Batch Develop tools used PL/SQL a back-end solution; Server database Oracle Server.

- **SSO (Single Sign on):**
  Duration: December 2014 - February 2015
  Industry: Advanced Info Service Plc.
  Team: SAND (SSO)
  Position: Programmer Analyst
  Responsibilities:
  - Responsible for Developing programs SSO (Jobs Sync Update data Support Mobile Application) request by SSO Team. The system has been designed following common MVC pattern: Develop tools used as SSIS (SQL Server Integration Services) a back-end solution; Server database MySQL Server.

- **Access Matrix:**
  Duration: October 2014 – January 2015
  Industry: Advanced Info Service Plc.
  Team: SAND (Project Access Matrix)
  Position: Programmer Analyst
  Responsibilities:
  - Responsible for Developing programs Access Matrix (Access Control and Identity Management) request by Staff AIS. The system has been designed following common MVC pattern: Spring MVC framework is being used as a front-end solution; Server database Oracle.

- **CDR Internal BOS:**
  Duration: May 2013 – October 2013, May 2014 – August 2014
  Industry: Advanced Info Service Plc.
  Team: IRB (BOSD)
  Position: Programmer Analyst
  Responsibilities:
  - Responsible for Developing programs CDR Internal BOS (Call Detail Rating Internal for Billing Online System) requested by AIS Call Center. The system has been designed following common MVC pattern: Spring MVC framework is being used as a front-end solution; Server database to Web Services for BOS.

- **3C : (Convergent Customer Care)**
  Duration: November 2013 – Present
  Industry: True Information Technology Co., Ltd.
  Team: 3C
  Position: Programmer Analyst
  Responsibilities:
  - Responsible for Developing programs CCC (Convergent Customer Care) Project requested by True Call Center. The System has been designed following common MVC pattern : Prime Faces framework is being used as a front-end solution; Server database to Web Service for OM Team and CCB-INT Team.

- **APP**:
  Duration: March 2013 – April 2013
  Industry: Command Control Technology Co. Ltd.
  Team: Web Application
  Position: Java Programmer
  Responsibilities:
    - Responsible for Developing programs APP such as: backlist module and what list module. The system has been designed following common MVC pattern: Struts2 framework is being used as a front-end solution; Server database to Oracle.
- **NSureX**: http://www.nsurex.com/
  Duration: August 2012 – April 2013
  Industry: Command Control Technology Co. Ltd.
  Team: Web Application
  Position: Java Programmer
  Responsibilities:
    - Responsible for Developing programs NSureX such as: Login module, User module, Group user module, System configuration module, Dealer module and Dealer Child module; Reporting module has been designed and implemented by iReport and Jakarta POI. The system has been designed following common MVC pattern: Struts2 framework is being used as a front-end solution; Server database to Oracle.
- **Valentine II(Magic library System)**:
  Duration: June 2012 – April 2013
  Industry: Command Control Technology Co. Ltd.
  Team: Web Application
  Position: Java Programmer
  Responsibilities:
    - Responsible for support Developing Programs Valentine II. JSF JBoss framework; Server database to Oracle.
